

## KS1 Topic Grid Autumn 1 2016.

### Disney! Science & History Focus

#### English

We will look at fairy tales portrayed by Disney.

#### Music/ Drama

We will explore sounds that can be made using our bodies and instruments.

#### Art

We will study animation and how cartoons are produced.

We will draw, paint and collage to create Disney characters.

#### PE – Dance

We will create sequences and perform actions with control, using Disney music and video as a stimulus.

#### Geography

Our key learning objectives: to learn the countries and seas of the UK and the continents and oceans of the world.

#### DT

We will design and make simple moving toys, puppets and masks using hinges and sliders.

#### Outdoor PE

We will learn about the importance of balance, speed and agility.

We will learn to play games as a member of a team with our coach Mr McGrory.

#### SEAL

We will learn more about 'Belonging' and look closely at how our classes can work together as a team.

#### Visits/Visitors

Disney Day!

Filming with the Broadway Cinema

Autumnal walk to the park

Find out more on the internet...

Use: Woodland Trust Nature Detectives

#### Science

We will utilise 'Virtual

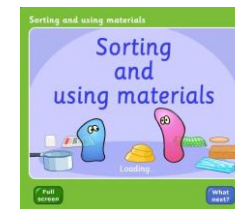

Experiments' on the laptops.

We will be investigating the properties and uses of materials.

We will ask questions: 'Could Cinderella really wear a glass slipper?' and 'What would we make a door out of for Monsters Inc?'

Find out more on the internet...

Use: bbc science clips- materials

#### History

We will find out about the life of Walt Disney and his early films.

We will also be looking at the way of life of people who lived in the past by studying old toys. We will compare them with modern examples and sort them into chronological order.

#### ICT

We will find out more about computer programmes and how they work.

E-Safety: Which computer games are suitable for us?

Help your child by looking for the age rating (PEGI) on games.
